THE HERALD.

CICERO T. SUTTON, EDITOR.

WEDNESDAY, APRIL 11, 1883.

Vale!

Gentle reader, for the last time you glance on this column under my control. I have transferred the HERALD and all that thereto pertains to Mr. John P. Barrett, the former editor, and now I lay down for the present my editorial life as far as the HERALD is concerned. Our acquaintance has been short, dear reader, only a little over two years at farthest and perhaps much less, since I proudly made it, but it has been pleasant to me and I hope sincerely that you are none the worse for it. That it has been my aim to make you no worse, my heart, which has always throbb'd for what I thought was right alone, tells me. I have been independent in my convictions and I hope fearless in my expressions of opinions which were formed to speak. I know I have made many friends and some enemies as well. To the first, my love; to the last, if they are honest men, my regard. I hate no man. The true man never hates. Only the coward can find a place for that craven passion in his bosom.

Mr. Barrett will issue the next paper, and will give you, I hope, a better one than I have been able to do. The people should support him better than the HERALD has ever heretofore been supported, because a county paper is an enterprise that should not be allowed to fail.

Yes, farewell! I hate to say the word at any time to any one, and more than all to those who seem like members of the same common family, my readers. Whatever may come to me in the years of the future, think of me as kindly as you may; I shall reserve the tenderest spot in my heart of hearts for those who have been kind to me. I do not expect to forget one of you, and I hope not to be forgotten of one. If you would care to know it, I would say that I am not gone forever. My plans are not that I should be. Till I reappear, with a tear in my heart, for there the lachrymial well-springs are, I say to you farewell!

CICERO T. SUTTON.

BILL TYLER, a colored mail carrier on the Hopkinsville and Cadiz route was stopped on Saturday night by two men who drew their pistols and demanded the mail bag which was promptly handed over. No clue to the robbers has been found. This is the second time that the mail has been robbed near that city.

BERT WING, formerly of Greenville, shot and killed Joe Glenn, of South Carrollton, in St. Louis last Thursday morning. Wing went from Greenville, a week or two since with Miriam Reno, a noted female, of that place and Glenn, who was in St. Louis at the time, happened to see the Reno woman and took her away from Wing, who followed her to the house where they had secured a room. He went in where they were and he and Glenn quarreled with the result as above stated.

A GENTLEMAN from Owensboro informs us that a man was killed at Hays & McDonald's sawmill in that place last Friday on the bursting of a circular saw while in motion. The Post publishes an account of the accident, but to save the life of us, we cannot tell whether it was one man or another or the sawmill or a book agent or the Post reporter himself. It is worse mixed than our smallpox notes of last week, in which we said in one line that there was but one case of smallpox in the county when we should have said three. When the first item was written, we had not heard of the others and in reading proof it was overlooked.

THE star-route trial is progressing very slowly. Brady's trial lasted fifteen weeks. Dorsey is on the stand now in the eighteenth week of his trial. If they keep inditing, and the rest of the trials last as long as the two first, when will it end?

THE President has filled the vacancy caused by the death of Hon. Timothy O. Howe, Postmaster-General, by appointing Judge Walter Q. Gresham, of Indiana, to that position. He was a Major General during the late war and has been Judge of the United States Court for the District of Indiana in 1857 when he was appointed by Grant. Gresham had his name on the slate at the time for appointment to the subject, but the machine politicians would not suffer his appointment. He will doubtless make a good officer as he has had long and successful experience in various public and private walks.

Western Kentucky Press Association.

The third annual meeting of the Western Kentucky Press Association is hereby called to meet in the city of Henderson on Wednesday and Thursday, May 23d and 24th, 1883.

It is earnestly desired that every editor and publisher in the First Superior Court District shall become a member of the Association. Every effort will be made to make the meeting the most interesting and successful one yet held.

Members who expect to attend, and editors and publishers who wish to attend in order to become members of the Association, are requested to notify the Secretary at their earliest convenience, in order that he may make the necessary arrangements in regard to transportation.

All papers published within the bounds of the First Superior Court District, are requested to publish this call, and their editors and publishers are cordially invited to become members of the Association.

County Convention.

At a meeting of the Democratic Executive Committee of Ohio county, held on the 4th day of April, 1883, at the law office of J. E. Fogle pursuant to call, it was moved and adopted that a primary convention be held on the 28th day of April, 1883, in the various voting precincts for Ohio county at one o'clock p. m., for the purpose of electing delegates to attend a convention, to be held on the 5th day of May, 1883, at the court house in Hartford, Ky., at one o'clock p. m., to nominate a suitable person to represent Ohio county in the Lower House of the next General Assembly, and to select delegates to attend a State Convention to be held at Louisville, Ky., on the 16th day of May, 1883, to nominate persons to fill the various State offices.

The Democracy of Ohio county is therefore requested to assemble at their various voting places in the county on the 28th day of April, 1883, at 1 o'clock p. m., and to hold primary convention for the purpose as above set out, and to keep a fair record of all the votes cast and for whom, so as to have both a majority and minority representation and to transmit same to the convention to be held at Hartford on the 5th of May as aforesaid. None but Democrats are expected to participate in said primary and those only who have heretofore affiliated with the Democratic party and who will support the nominees of the party. Then there is the half-cent tax we are now paying for the benefit of the A. & M. College at Lexington which should be turned over to the common school fund or the law levying the tax should be repealed outright. That there is general dissatisfaction with the result of our school system, needs no argument to prove. It is conceded by all, that fact goes without saying. And strange, yet true, that among all the propositions made, or theories advanced by the advocates of popular education for the improvement of the system, there is scarcely one looking to economy. Some for money; higher taxes the only remedy; others think that we need lectures to travel through the country and make education, feather-head speeches to enthuse the people. This must necessarily increase taxes or absorb more of the present fund. Still others there are who want more money and compulsory education. All these propositions point to increased hardships upon the people which is not at all admissible until the system has been revised, simplified and economized so as to give an assurance of better results. People will give as freely as they are able for popular education whenever they are assured that the money will be skillfully handled and appropriated so as to give in return the largest possible amount of educational facilities. Make education convenient and cheap, and the people will want no great amount of persuasion to accept it. A law compelling attendance at school would be inoperative under our present system. There would be nothing gained by compelling the attendance of children without books, and with the present extravagant cost and frequent change of books, it is utterly impossible for many persons with large families to furnish them, and a supplementary law would soon be found necessary requiring the books as well as the instructor to be paid for out of the school fund.

W. C. C. Chapman, Chairman,
T. J. SMITH, Sec'y.

On Saturday, April 7, 1883, the Post published an account of the accident, but to save the life of us, we cannot tell whether it was one man or another or the sawmill or a book agent or the Post reporter himself. A terrible accident occurred Friday at Hays & McDonald's sawmill, Charley Marks was instantly killed by a flying buzz saw, which cut its way through a partition before striking him.

John S. Miller has had a good house on the hill above Hurricane spring, and his son Elijah has moved into it.

A daughter was born to the wife of L. T. Brown on the 25th ult.

Frank Rowe has the foundation laid for a neat cottage residence in our burg.

W. P. Rose & Sons expect to commence building their storehouse in the near future.

Ike Souleter, of Hartford, has been circulating among his old friends for two or three days. He's a regular master among the fair sex, and can smile as sweetly as Miles Orion's "What is it?"

Owensboro has numerous empty houses—a strange contrast to two years ago when one could not be had at any price.

Talk on Schools.

Editor Herold.

I am glad to see you espouse the text

book cause. It points in the direction of true economy, and if taken hold of by true advocates of education and formulated into a system and made part and parcel of the educational system, it will furnish more material aid to the cause of education than any proposition that has been advanced and that without working any additional hardships upon the people, a point which must not be lost sight of. The people are in no condition to bear any additional burden in the way of taxation. By a system of rigid economy our educational advantages may be double what they are today without any additional expense which must be done to give satisfaction. Anyone who has given any attention to the subject, will see that by a proper arrangement, school books may be procured at fifty per cent less than their present cost to the consumer. Let them be bought by the Superintendent of Public Instruction or other person, whose duty it may be, at the publisher's price and sent to the Commissioner of each county as needed, to be sold to the consumer at cost and carriage, and we cut off two or three profits and as many commissions which now go to the different jobbers and agents along the line. These profits and commissions will be more than fifty per cent off of the present cost. But we will allow fifty per cent and take your estimate of the average cost of books per scholar as a basis, and we have the sum little sum of \$2.00 per scholar, more than double the amount of the State per capita. This amount now unnecessarily paid by patrons for books, may be paid for tuition, and when added to the State per capita \$1.25 makes \$3.25 per scholar without increasing the present outlay a single cent. By a little economy in the present school system, a saving in expenses may be made without detracting from its efficiency which would raise the State per capita to \$1.50 which would make the whole amount \$4.10 per scholar. Again we make quite a saving by requiring all the free schools in the State to be taught from the same series of books which may be used and passed from one scholar to another until worn out, or until a change is made by the proper authorities, instead of being laid upon the shelf, scarcely soiled, just to suit the whim or taste of a new teacher. Then there is the half-cent tax we are now paying for the benefit of the A. & M. —Owensboro Tobacco Market.

At her home in this place, at 9 o'clock p. m., on Thursday, April 5, 1883, Mrs. John E. Bean and E. E. Medcalf died.

The best eulogy we can give is to refer to the long life she laid down, through all of which she with bright effulgence the many noble traits of womanhood, which will serve to keep the flowers of memory fresh for years or forever in the hearts of those who knew her.

She was a daughter of Charles Henderson, who, with his family, came to Ohio county in 1798, and settled in Hartford. He was Clerk of the Circuit and County Courts for a period of over forty years, and is remembered as such by many who are not yet our old citizens.

Her birth occurred in the year 1812, and she was consequently in her 71st year at the time of her death.

She was educated at Science Hill, Shelbyville, Ky., the most celebrated school for young ladies, Kentucky has ever known. The training she received there was not by any means superficial, for as long as she lived there were evidences of superior and well-trained natural gifts and acquired accomplishments.

As an early age she wood the mutes and they responded to the call, the result being that she wrote for the Louisville Journal while Prentiss was editor, and her articles attracted much attention, securing recognition from Kentucky's greatest wit and poet. He frequently wrote commendatory letters to the young authoress and took every opportunity of recognizing her merit as a writer.

But three of her seven children survive her: Mrs. Dr. Pendleton, Col. I. B. Nall, editor Farmers Home Journal, Louisville, and Eugene Nall, Esq., of Jeffersonville, Ind.

Who are owing me, I would say that I am needful the amounts we owe me very much and would be greatly pleased if they would pay me.

Respectfully, Dr. S. L. Berry, Altoona, Fla.

—An immense stock of trunks, of a superior quality just received at Anderson's Bazaar.

—Mr. S. L. Baird, was kicked in the head by a young horse last Friday. The injury is quite serious but it is not thought that it will prove fatal.

—Don't forget that the newest, most stylish, best and cheapest millinery can be found at Mrs. Nannie Jones' store at Horton.

—Woerner has a case of genuine French blacking in 5, 10, 15 and 20 cent sizes. It is cheaper and much better than Mason's blacking.

—Our lady friends should remember that they can get the very latest style millinery goods from Mrs. Nannie Jones at Horton.

—Ella Miller, died last Friday of whooping cough and pneumonia after an illness of several days. She was a bright, sweet little cherub and her departure leaves a shadow where all was sunshine in her home.

—A pure, radiant complexion is one of woman's greatest charms. It is attainable by the daily use of Glenn's Sulphur Soap, which removes blemishes of the skin, cuticular ailments of every description, and is an admirable disinfectant.

Obituary.

It is with deep regret I announce the death of Mrs. Katherine Mottelet, wife of Christian Henry Mottelet. The sad event occurred at her home near Rock Port, Ind., March 27th, 1883. The cold, ruthless messenger claimed her life and she is now wrapped in the dream-like drapery of death; but her spirit has passed over to the "House Beautiful" and has joined the majority of loved ones. Life's fitful dream is o'er, and she is beyond the shadowy shore, where the sea of trouble will cast no wave. She is a lady who leaves many pleasant recollections. Mild and lovely in disposition and manners, affable to all, she was a favorite with her acquaintances. A fast friend and a loving and dutiful wife and mother. Her loss created a vacuum, not alone in the domestic, but also in the social circle. And why she was removed in the midst of her usefulness and the benign influence of her presence in every department of life, is a question very naturally arising in the circle where her moral and Christian duties were so well known. I tender my deep-felt sympathy to the devoted husband and five little orphans thus suddenly left to clamber over the sharp and difficult passes of life, without a mother's wise and tender counsel. Also to her loving sister in our midst, Mrs. Louis Guchner, who died for "Thee" alone.

Some genius has invented a machine to play pianos. This will fill a long-felt want. When two young people of opposite sex are in the parlor in the evening, the old lady don't begin to saunter in until the piano stops.

An old butcher was out in Missouri, with neuralgia, he suffered like fury. St. Jacobs Oil banished the pain which all vanquished—and prevented a coroner's jury.

There's nothing like settling down," said the retired merchant confidentially, to a neighbor. "When I gave up business, I settled down and found it had quite a fortune. If I had settled up I should not have had a farthing."

Ten years ago, the name of Lydia E. Pinkham was scarcely known outside of her native State. To-day, it is a household word all over the Continent and many who read the secular and religious journals have become familiar with the face that shines on them, with a modest confidence, in which, we read the truth that "nothing ill can dwell in such a temple."

Two things well considered would prevent many quarrels; first to have it well ascertained whether we are not disputing about terms rather than things; and, secondly, to examine whether that on which we differ is worth contending about.

John K. Hutchinson, Tuscaloosa, Ala., writes, "I have suffered with the piles for many years and have tried almost all the remedies now in use and I can truly say that there is none that will compare with Tanner's German Ointment, as it softens the tumors and takes the pain out."

A school girl of Cambridge, Mass., slipped and fell, and a lead pencil which was in her pocket penetrated her right side to the depth of about four inches, causing serious injuries. The pencil was broken and a surgical operation had to be performed to extract it.

Durability is better than show. Durability of health is worth more than the wealth of a Vanderbilt. Kidney-wort is man's co-laborer in maintaining health. With healthy liver, bowels and kidneys, men and women will always be in good health. If the bowels are torpid, if piles torment, if the back is full of pain, get a package of Kidney-wort and be cured without more suffering.

Never go back—never. What you attempt, do it with all your strength. Determination is omnipotent. If the prospect be somewhat darkened, put the fire of resolution to your soul, and kindle a flame that nothing but the strong arm of death can extinguish.

A waiter in a restaurant in this city brought a cup of tea to a customer as a portion of his supper. On returning with the balance of the gentleman's supper, the waiter observed the cup of tea on a chair close by. He asked the

gentleman why he put it there. "I was so weak," he said, "that I thought I would give it a rest."

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases; when you wish to enrich the blood and purify the system generally; when you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulator of the various bodily functions. Ask your druggists.

A Canadian paper says that Jews are the longest lived people. The mortality among infants, so great everywhere, and said to be unusually so in Montreal, is among the Hebrews but ten percent. The mean age of the Jewish life is given as forty-eight years. One-fourth of them live to be seventy-one' and another fourth survive to see their sixtieth year.

A cranky old man named Blake, says "St. Jacobs Oil takes the cake." He gave it one test, And says it's the best. Cure in the world for backache.

"What do you call them?" asked a "small brother" of young Brown, who was making a call. "What do I call them? Why, I should call them beans." "There," said the small brother, turning triumphantly to his sister, "you said that Mr. Brown didn't know beans, but he does." And a nine-month-old boy left the room weeping a twelve-year-old smile.

Plain Man's Testimony.

Dr. Tanner's German Ointment cures many things besides sores, wounds and bruises. As a remedy for piles it is one of the best things ever used.

Want to rub it on pa's legs?" said the boy, as he tried to draw smoke through the cigar stub.

"Why, what is the matter with your pa's leg? Rheumatism?"

"Was not rheumatiz?" said the boy, as he threw away the cigar stub and drew some cider in a broken-tea cup. "Pa's got the worst looking hind legs you ever saw. You see, since there has been so many fires pa has got 'em scared, and he has bought three fire escapes, made out of rope with knots in them, and he has been telling us every day how he could rescue the whole family in case of fire. He told us to be cool, whatever happened, and to rely on him. If the house got on fire we were all to rush to pa, and he would save us. Well, last night ma had to go to one of the neighbors, when they was going to have twins, and we didn't sleep much, cause ma had to come home twice in the night to get sufficed, and an old hampered petticoat that I broke when I was a kid, cause the people where ma went did not know what twins was on the bill of fare, and they only had hampered petticoats for one. He was cross at being kept awake, and told ma he hoped when all the children in Milwaukee were born, and got up, she would take in her sign and not go around nights acting as usher to baby in times, as I had waited for my breakfast till I was hungry as a wolf, and the girl told me to wake pa up, so I went up stairs, and I don't know what made me think of it, but I had some of this powder they made red fire in the theatre that me and my chum had the 4th of July, and I put it in a wash dish in the bath room, and I touched it off and heeded fire. I was going to wake pa up and the bell him it was all right, and laugh at him,

I guess there was too much fire, or I yelled too loud, cause pa jumped out of bed and grabbed a rope and rushed through the hall towards the back window, that goes out on a shed. I tried to say something, but pa ran over me and told me to save myself, and I got to the back window to tell him there was no fire just as he let himself out the window. He had one end of the rope tied to the leg of the wash stand, and he was climbing down the back side of the shed by the kitchen, with nothing on but his night shirt and he was the horribliest looking object that ever was, with his legs flying and trying to stick his coathals into the rope and the side of the house. I don't think a man looks well in society with nothing on but his night shirt. I didn't know the hired girls for being scared when they saw pa and his legs come down outside the window, and when they yelled I went down to the kitchen, and they said a crazy man with no clothes but a pillow case around his neck was trying to kick the window in, and they ran into the parlor, and I opened the door and let pa in the kitchen. He asked me if anybody else was saved, and then I told him there was no fire, and he must have dreamed he was in hell, or somewhere. Well, pa was astonished, and said he must be wrong in the head, and I left him thawing him off by the stove. Well, I went after his pants, and his legs were badly chilled, and I guess nothing was froze. He lays it all to me, and says if she would stay at home and let people run their own baby shows, there would be more comfort in the house. Ma came in with a shawl over her head, and a bowl full of something that smelled frowzy, and after she had told us what the result of her visit was, she sent me after vaseline to rub pa's legs. Pa says he has demonstrated that if a man is cool and collected, in case of fire, and goes deliberately at work to save himself, he will come out all right."

Want to rub it on pa's legs?" said the boy, as he tried to draw smoke through the cigar stub.

"Why, what is the matter with your pa's leg? Rheumatism?"

"Was not rheumatiz?" said the boy, as he threw away the cigar stub and drew some cider in a broken-tea cup. "Pa's got the worst looking hind legs you ever saw. You see, since there has been so many fires pa has got 'em scared, and he has bought three fire escapes, made out of rope with knots in them, and he has been telling us every day how he could rescue the whole family in case of fire. He told us to be cool, whatever happened, and to rely on him. If the house got on fire we were all to rush to pa, and he would save us.
